WHEN YOU ARE NERVOUS

you have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often foreruns more serious trouble.
If those so afflicted would stop taking medicine containing alcohol or drugs which menace the foundations of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, refresh their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wines, alcohols or drugs. Shun substitutes.

CARIBOU OF THE YUKON.

Caution of an Old Bull in Guiding and Guarding His Herd.

In his book, "Canapies in the Yukon," Harry A. Auer tells how his party watched through powerful glasses an old bull manage a herd of caribou:

"Five miles into the sea of peaks above our camp we saw a herd of thirty-four caribou that had been summering in the high altitudes, but were now driven out by the winter and were on the march to lower levels. There were cows, calves and small bulls in charge and under the strict domination of a fine old bull with a big head, which we decided not to shoot for fear of alarming the sheep that might be within hearing distance.

"We were quite content to watch the old patriarch manage his large family. We saw him lead the way to a small willow patch, and after his flock had browsed a few minutes he deliberately drove them away and headed them down the valley toward us, rushing first on one side and then on the other and finally at the rear of the column, trying to keep his charges from straggling or wandering off the course.

"When the caribou saw us at about 200 yards they started to stampede in different courses, but the old bull fan to the head of the column and changed the leader's course and, utterly regardless of his own danger from us, he rushed about, herding the animals in the way he had selected and was himself the last to follow, and as the flying band vanished around a low ridge the old fellow was charging a few smaller bulls from behind, driving them forward to make a compact formation."

ORIGIN OF WORDS.

Expressions Sometimes Stray From Their Original Meanings.

The word "sweetheart" seems everything it ought to be for expressiveness. One would naturally think that it had been coined for the occasion, like such a word as "honeysuckle."

But that is a delusion and a snare. It has no more to do with "heart" than it has with "lungs." It is a word that belongs to the class which includes "sluggard" and "coward" and "dullard" and "niggard." Pretty company for a poet's word! But it is true, though sad, that "sweetheart" ought to be spelled "sweetard."

Who has not joined in a country dance? Of course the country dance reminds one of maypoles and merry-makings and harvest homes. Sir Roger de Coverley and his quaint rural manners and ways seem inseparably connected with the dance. But it has no more connection with fields and haystacks and cornricks than the turkey trot. The partners in the dance face each other, and the French therefore called it a "contre danse." There you are! The secret's out.

What are "kickshaws?" Just the French "quelques choses," which means "anything."

What is the origin of tramway? It is short for Outram way, because a man named Outram invented them, just as a man named Macadam invented macadamized roads.—London Answers.

Cats and Needles.

Cats seem to have a habit of swallowing needles. When a cat is brought to a veterinary hospital suffering with a cough the doctor always looks for a needle. In one instance Dr. Childs of New York operated on a cat to remove what he thought was an ordinary needle. He found a hatpin nine inches long. But the cat's life was saved.—Popular Science Monthly.

The Modern Moses.

"What's your idea of a party leader?" "A party leader," replied Senator Sorghum, "is a man who finds out what the people want." "And then gives it to them?" "No; promises it."—Washington Star.

Pleasant Words.

Poet—I seek a phrase that shall express the joy of life in two words. Can you suggest anything? Unfeeling Friend—Received payment!—Judge.

Meteors.

Meteors had an unusual influence on the Greeks and Romans, who in a way worshiped the falling bodies of luminosity. It is declared that the Palladium of Troy and the image of Diana at Ephesus were erected to meteors. At times the fall of these mysterious strangers has been accompanied by disastrous results, for it is on record in China that ten persons have been struck and killed by them. The Smithsonian institution has among its meteoric collections one which weighs in the neighborhood of 500 pounds, whose composition is nearly pure nickel. There have been discovered by chemical analysis twenty-nine elements in meteors, all of which are found on and in the earth.

Sunshine.

In a year 4,472 hours of sunshine are possible, but few places ever experience the maximum.

Prince Albert gives smokers such delight, because

- its flavor is so different and so delightfully good;
- it can't bite your tongue;
- it can't parch your throat;
- you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

This is the reverse side of the Prince Albert tin. Read this "Patented Process" message to you and realize what it means in making Prince Albert so much to your liking.

How Gold Plate Is Made.

There is practically no solid gold plate. The so called gold plate services are silver gilt, and only a few pieces of pure gold are owned by the English crown or any other crown. It may interest our readers to learn how this fire, mercurial or water gilding—for it is known by all of these three names—is done. Pure gold and mercury are mixed into a paste. The silver article to be gilded has been chemically cleaned, is rubbed all over with this paste, which has been placed in a silk bag, just as the blue used in washing is put in a bag. When the piece of plate has been rubbed over it is perfectly white. It is then put into an oven, and gradually the mercury goes off in fumes, leaving on the article a deposit of pure gold, which has practically become one with the piece of silver and will last for centuries.—New York Post.

His Ambition Now.

"What is his ambition?" "A year or two ago he wanted to make a great fortune; now he's decided that he'll die happy if ever he makes a golf course in par."—Detroit Free Press.

He Got Valuable Information.

The story is told of the times of Aretas Blood and the old Manchester locomotive works that a student came to Mr. Blood once and wanted to study the business of locomotive building in his vacation days. The student came well recommended, and Mr. Blood, who never had much use for these "tech" people, sent him down to the boiler shop and placed him in charge of the old foreman. The old man took the "tech" man around, and in the course of the inspection of the shop they came across one boiler on the inside of which was a man at work.

"How does that man get out?" inquired the "tech" man.

"Oh," said the venerable pilot, "he doesn't get out. We always count upon losing at least one man in building a boiler."—Manchester Guardian.

Inherited.

Knickers—Jones has a bad memory. Bocker—His mother never knew what were trumps, and his father couldn't remember anything on the witness stand.—New York Sun.

Those who can command themselves command others.—Hazlitt.
